

● A MIRA PICKS COMPANY

Flicsy

Your personal AI fashion desk.

Mira Picks was an AI-native fashion magazine.
Flicsy turns that editorial intelligence into
personal shopping.

AI agents research, debate, shop, critique, and assemble
complete looks for one customer.

From “What should I wear?” to a complete look

“I’m going to a gala dinner in San Francisco. I love skiing, I wear a lot of blue, and I want something elegant — but not conventional.”

MIRANDA CLARIFIES ONLY WHAT MATTERS

- DRESS CODE
- BUDGET
- SILHOUETTE
- FOOTWEAR
- DISLIKES

Flicsy solves a *styling* problem, not a keyword-search problem.

● MIRANDA'S EDIT

From fashion intelligence to conversion

Ambiguous intent → research → social context → real merchandise → critique → complete look → checkout

Mira Picks told you what was fashionable.
Flicsy shops for who you are.

Commerce objective: move a shopper from uncertain intent to a coherent, purchasable outfit. Stripe test checkout completes the commerce flow.
